The quantity of coal in a rake shall be as indicated in the notice of e- Auction
- The Buyer should satisfy itself / himself about the Rake fit stations / destinations from the Railways before participation in e-Auction by rail, Non-acceptance of the programme, even after the option exercised under extant Railway rules, on account of rake-fit stations / destinations being not accepted by the Railways shall be treated as a failure of the Buyer leading to forfeiture of related EMD/BG amount.
- Quantity per rake is 3894 tonnes for the purpose of bidding. However, quantity per rake for financial coverage shall be 4012 tonnes.

Post auction activities:

- The successful Bidders after the e-Auction will be required to deposit coal value with the concerned Coal Company, as per clause 6 related to terms of payment of Special Spot E-Auction Scheme 2020 for Import Substitution (only for coal importers), after the date of closing of e-Auction.
- The successful bid quantity of a bidder for the period (operative months) would be divided in equal parts for determining Monthly Scheduled Quantities (MSQ) for coal supplies during the period. However, in case of supply by rail, such equal monthly parts shall be in the multiple of rake load. The total successful bid quantity in rake loads for the period for a bidder shall be distributed equally over the operative months of the period. In the event the number of rakes is not exactly divisible by no. of operative months, it will be dealt as under:
 - a) If the number of rakes is less than number of months, it will be sequentially distributed from the initial month.

b) If some rakes are left in excess after equal monthly distribution, these rakes will also be distributed subsequently from the initial month.

However both buyer and seller can recast the monthly schedule on mutual consent in advance of the stipulated date of payment of 2nd installment.

- The coal value to be deposited in advance by the successful Bidders shall be computed and deposited after making provision for the EMD amount for the successful Bid quantity already transferred by the Service Provider to the subsidiary Company. In other words, the coal value to be deposited and EMD amount together, shall be not less than 100 % coal value. In case of submission of EMD in the form of BG, the successful Bidder shall deposit the applicable full coal value without any adjustment for the EMD.
- EMD amount shall not be treated as an adjustment towards the coal value but would stand converted into a 'Security Deposit' for performance of the Bidders towards completion of the said transaction.
- The above Security Deposit (as converted from the EMD amount) would be adjusted as coal value, only after completion of lifting of coal covered under coal value paid, excluding Security Deposit. However, in the event of default in performance by the Bidder, the provision of forfeiture of the 'Security Deposit' (as converted from the EMD) as stipulated, would be applicable.
- In case of BGs, the successful Bidder shall be depositing applicable full coal value against the MSQ. The BG shall remain as security with Coal Company. In case of default in lifting the coal company shall encash the BG at the end of lifting period giving 10 days' notice to the Successful Bidder. In case the required amount is paid by the Bidder in cash within the notice period, the BG shall not be encashed.
- If BG needs to be encashed, whenever required, including forfeiture due to default in lifting, it shall be encashed in full irrespective of the applicable amount of EMD forfeiture. The residual encashed amount after forfeiting applicable EMD and adjustment of dues, if any, after reconciliation after the lifting period shall be refundable.
- In case the BG needs to be encashed prior to end of lifting period the bidder shall have the option to deposit fresh BG to take back the security deposit available with Coal Company after adjustment of dues. In case of non-deposition of fresh BG, the encashed amount in full irrespective of the forfeitable amount will remain as cash EMD/ security deposit with Coal Company.
- The successful bidder will have to maintain required amount of BG as security deposit for the applicable quantity. The BG coverage should not be less than the required amount at any point of time. However such replacement/reduction of BG shall be subject to the consent of Coal Company
- The successful bidder will be required to deposit coal value against the scheduled quantity of the month with the concerned coal company on monthly basis in two instalments as per bidder's choice. The first instalment to be deposited within 10 working days of start of the month and the second instalment by the end of the month. Such payments shall be made through e-transfer (RTGS/NEFT) in favour of the concerned coal company payable along with the debit advice issued by the bank

certifying that e-transfer has been made by debiting the account of the concerned consumer/ bidder. However dates of payment can be rescheduled by the coal company for the first month of the e-auction period if needed.

- In case coal value is deposited by the successful bidder for less than the monthly scheduled quantity, the coal company shall accept the payment for the said quantity and forfeit the EMD amount for the failed quantity.

However, the Monthly Scheduled Quantity can be revised on mutual consent of buyer and seller in advance of the stipulated date of payment of 2nd instalment.

- The successful bidder will have the option to deposit financial coverage in the form of BG with the concerned coal company as per prescribed format (provided by respective coal company) covering the maximum quantity of coal to be supplied during any month of the period. Timeline in this regard to be notified by Coal Company.
- In such cases, where financial coverage is furnished in the form of BG by the successful bidder, a notice for deposition of the coal value by way of e-transfer will be displayed on the notice board and also on the website of the subsidiary coal company, at least 3 (three) working days in advance before the expected date of offer to the railways for allotment.
